

孔雀，百鸟之王
吉祥、美丽、华贵的象征
PEACOCK

一个时代的品牌，光辉岁月中凸显王者风范
一种时代的精神，酝酿着亘古不变的经典情怀

腕表从一个计时工具渐渐发生着演变
他代表着一种时尚
他代表着一种地位
讲述着品牌的价值和拥有者身份

成就，尽在精雕细琢

公司简介

“辽宁孔雀表业有限公司”前身是“辽宁手表厂”，始建于 1957 年，坐落于风景优美的鸭绿江畔的丹东市，是国家手表生产基地。丹东市不仅拥有得天独厚的地理优势和气候环境，还是中国手表制造业的发源地，因此被誉为“东方日内瓦”。自 1957 年建厂至今，长达半个多世纪的发展历程为孔雀表业奠定了雄厚的产业基础，形成了人才培养、产品研发、零件生产、成表装配、市场销售一条龙的完整生产体系。

公司以“品牌”发展为核心，以“技术”为基础，以“市场”为方向。通过科技创新不断提升品牌价值；通过扩大市场规模不断扩大品牌影响力。引进先进的管理理念和团队，不断拓展国内市场。

2011 年，辽宁手表工业园落成。孔雀表业加大科技投入力量，瞄准世界先进水平，坚持开发新产品，研发具有独创性、高附加值、世界一流的高端产品。

孔雀表业将秉承心心相印、精益求精的团队精神，开创新篇章。

陀飞轮介绍

陀飞轮是瑞士钟表大师路易·宝玑先生在1801年发明的一种钟表调整装置。法文Tourbillon(故又称特比龙),有“旋涡”之意,是指装有“旋转擒纵调速机构”的机械表,陀飞轮机构,是为了校正地心引力对钟表机件造成的误差。由于其独特的运行方式,已经把钟表的动感艺术美发挥到登峰造极的地步,历来被誉为“表中之王”。

使用说明

功能:

手动上弦，中心偏上，时针、分针中心指示时间，6点位陀飞轮。

使用调整方法:

把的位置“1”手动上链；
把的位置“2”拨针校时。

手表描述

#	产品型号 P501-4		表壳厚度 11.5mm
Q	机芯型号 5003DT		防水深度 30m/3巴

陀飞轮机械机芯

蓝宝石表镜

优质碳纤维表壳

高级尼龙表带

如何确保机械表经久耐用、精密准确

磁场：扩音器、冰箱、平板电脑等会产生强大的磁场，避免将手表置于其上。

撞击：避免在高温或其他情况下收到撞击。

非螺旋式表冠：将表冠按回正常位置，以防水进入手表机件。

清洁：金属链带和防水表壳，使用牙刷蘸肥皂水清洗，然后以软布擦干。

化学品：表壳、表带应避免与腐蚀性的化学品直接接触。

温度：避免暴露于气温极高或极低（高于 60℃、低于 -30℃），以及温差极端变化的环境。

特别建议

防水：30 米防水属于防溅水级别，只能满足基本的洗手、淋雨不摘手表。手表的防水性能是无法保证永久不变的，当中可能会受到垫圈老化或意外撞击表冠所影响。

应相隔多久做定期维修

如所有精密仪器，手表亦需定期维修，以确保运行无误。由于表款、气候和佩戴者保养状况各有不同，因此我们无法明确指示定期维修相隔期。一般而言，每 2 至 3 年应将手表送往专业的维修点检验。

应在哪里做维修

我们建议您将手表送至 PEACOCK 维修中心完成专业检修工作，并可保证检验完善。

售后地址：辽宁省 丹东市 振兴区 金泉路 18 号 辽宁孔雀表业有限公司 销售部收
联系电话：400-7909-888

表带

为保持手表的表带经久耐用，建议您注意一下各事项：

- 避免与水分或湿气接触，以防变色或变形。
- 避免长期暴晒于阳光下，以防褪色。
- 由于皮质易渗透，须避免与油脂性物质或化妆品接触。

Peacock is the king of the birds,
It is a symbol of good fortune, beauty and
luxury.

PEACOCK
a brand of an era,
shows its classical king style over the past glory
days;
a spirit of an era,
and always keeping the faith.

Wristwatch,
no more a timepiece only,
still a fashion, a sign of status.
It reveals the value of the brand and dignity of
its owners.

**All achievements come from the fine
engraving.**

Company Profile

Founded in 1957, Liaoning Peacock Watch (Group) Co., Ltd was first known as the "Liaoning Watch Manufactory". It was located in the scenic banks of the Yalu River in Dandong City. As the biggest border city in China, Dandong is in the center part of Northeast Asia. With unique geographical advantages and climatic environment, Dandong is named as the most beautiful border city in China, as well as one of the birthplaces of China watch manufacturing. Since 1957, through more than a half of century's development, our company has transformed itself into a major conglomerate and built the whole industrial system which contains training, developing, assembling and marketing as well as high-tech enterprises.

Regarding the "brand" as the core strategy, "technology" as support and "marketing" as orientation, we can promote our brand value by the innovation of the new

technique. Furthermore, we have adopted multiple global practices in regards to brand management and operation. By holding overseas enterprise shares and introducing advanced management and professional knowledge, we continuously expand oversea and domestic market in the future.

In 2011, we relocated to "Liaoning Watch Industry Zone", the project which is fully supported by the local government. This fulfills its central strategic vision of "developing new product, improving technology continuously and innovating highend production". The completion of the industrial zone will undoubtedly ensure the future development.

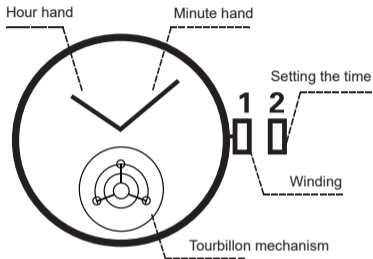

In according with the spirit of "linking the heart, striving for perfection", Liaoning Peacock Watch (Group) Co., Ltd will begin a new chapter.

About Tourbillon

Tourbillon is a kind of timepiece adjusting device invented by Mr. Louis Breguet, a Swiss timepiece master, in 1801. As the French name Tourbillon (it is also called as Tebilong) suggests, it has the meaning of "whirlpool", which refers to the mechanical watches that are equipped with the "Rotary Escapement Adjustment Mechanism". Tourbillon mechanism is designed to correct the errors of watch movements caused by earth gravity. Thanks to its unique operation mode, the dynamic artistic beauty of mechanical watches have been played to an extreme limit. Thus it is also known as "the king among watches."

Instructions for Use

Functions:

Manually wound movement; Hour & Minute hands are between the center and top position; indicate time with the hour hand and minute hand; Tourbillon is at the position of 6 o'clock.

Methods of using and adjustment:

Wind at Position "1";
Pull out the crown at Position "2" to set the time.

Watch Description

Q	Movement Name 5003DT		Waterproof Depth 30m/3 bar

Tourbillon movement

Sapphire watch glass

Top-quality carbon fiber watch case

Nylon watch strap

How to ensure the durability and precision of mechanical watches?

Magnetic field: do not put the watch on loudspeakers, refrigerators, tablet computers, and others objects that may generate strong magnetic field.

Impact: do not make the watch impacted in high temperature or other cases.

Non - screw-in watch crown: push the crown back to the normal position to prevent water from entering the watch movement.

Cleaning: Use a toothbrush dipped with soapy water to clean the metal chain belt and waterproof case, and then dry them with a soft cloth. avoid contacting directly with solvents, detergents, perfumes, cosmetics and other chemicals that may damage the chain belt, case and washers.

Temperature: do not be exposed to extremely high or low temperatures (above 60°C and below -30°C), and the environment with extreme temperature changes.

Specific Tips

Water proof: water-proof level in 30 meters conforms to the splash-proof level, which can prevent the watch from water while washing hands or getting wet in rain. The water resistance cannot be guaranteed eternally, and may be affected by the ageing gasket or accidental impact on the crown.

How often for regular maintenance?

The watch, like all precision devices, should be repaired regularly to ensure that the movement is unmistakable. Due to different models, climates and maintenance status of wearers, we can't indicate the regular maintenance intervals clearly.

Where for the maintenance?

It is recommended to send the watch to the Special Maintenance Center to check and repair, which can ensure a perfect service.

Address:

No.18 Jinquan Road Zhenxing District Dandong City
Liaoning Province China
Tel:400-7909-888

Maintenance Rules

Leather strap:

In order to keep the strap durable, please note the following items;

- Avoid contacting with water or moisture to prevent discoloration or deformation.
- Avoid exposure to sunlight to prevent fading.
- Due to the easy penetration of leather, avoid contacting with greasy substances or cosmetics.
